## Client Introduction

This case study documents 3-month performance of Google Adwords campaign run by Team UpReports for Ekattva Yogshala, an emerging yoga school based in Rishikesh, India. The main product of the yoga institute is 200 hours yoga teacher training certification priced at \$1300.

## Project Goals

Team Ekattva wished to reach people living in developed countries and interested in making a career as yoga teacher.

**“The goal was to reach people living in developed countries and interested in making a career as yoga teacher”**

Below were the major goals of Adwords campaign:

- ✚ Relevant website traffic
- ✚ Student signups
- ✚ Course queries

## Initial Findings

Since Rishikesh is the birthplace of yoga, **the competition for the ‘yoga teacher training’ keywords is brutal**. The average bid price goes to \$25. Since the client was on small advertising budget, our team undertook extensive research to create a highly focused campaign targeted towards cheaper keywords and search phrases with less volume.

## Ad Campaign Setup

Since our goal was to generate maximum ROI through Search Network, Team Upreports chose to work with All Features:

A screenshot of the Google Ads campaign setup interface. At the top, it shows "Campaign name Ekattva Yogshala" with an "Edit" link. Below this is a "Type" dropdown menu with a question mark icon, currently set to "Search Network only". To the right of the dropdown is a section titled "Choose a campaign type to switch to:" with a subtext "Switching between types may hide or expose some features and reports." Below this title are five radio button options: "Standard - Keyword-targeted text ads showing on Google search results", "All features - All the features and options available for the Search Network" (which is selected), "Mobile app engagement - Ads that encourage actions within your app", "Dynamic Search Ads - Ads targeted based on your website content", and "Call-only - Ads that encourage people to call your business". Each option has a small question mark icon. Below the radio buttons is a link "Learn more about campaign types". At the bottom of the section are two buttons: "Save" and "Cancel".

## LOCATION TARGETING

The screenshot shows the Facebook 'Locations' targeting interface. It is divided into two main sections: 'Targeted locations' and 'Excluded locations'. The 'Excluded locations' section lists Bangladesh, Sri Lanka, India, Nepal, and Pakistan. At the bottom, there is a search bar with the placeholder text 'Enter a location to target or exclude.' and a 'Save' button.
